Job Position : Senior Creative Design Specialist Feb- 2026

Dear Sir/Madam,

I am applying for the Senior Creative Design Specialist position. I offer extensive experience in creative design, digital media production, and professional-services communication, supported by strong technical proficiency and a consistent record of delivering high-quality visual work.

I have advanced skills in Adobe Creative Suite, including Illustrator, Photoshop, Premiere, After Effects and InDesign, as well as Microsoft 365 applications such as Word and Power-Point. My background includes developing on-brand visual assets, designing marketing collateral, producing presentation materials, and creating digital content for social media and web platforms. I am experienced in applying visual design principles including typography, layout, colour, hierarchy, and grid systems.

My professional roles in insurance, forensics, and client-service environments have strengthened my attention to detail, workflow organization, and ability to manage multiple projects and deadlines. I have experience maintaining brand standards, ensuring accuracy and confidentiality, and supporting cross-functional collaboration with business development, client-service teams, and technical departments. I am confident in my ability to support concept development, design production, asset roll-out, and version control while maintaining accessibility and formatting standards. I am also comfortable incorporating feedback, participating in critiques, and contributing to firmwide initiatives and campaigns.

Thank you for considering my application. I look forward to the opportunity to contribute my design skills, technical expertise, and professional experience to your creative team.

Sincerely
Chris Hadome Jr.
Creative Human
